

# Lifting station Aqualift S Compact Tronic, GTF 500, resistant, Floor slab

## Article information

Item no.: 280550SC GTIN: 4026092082669 Price group: 20

## **Advantages**

- System resistant to media containing salt and wastewater from water softening units
- Easy retrofitting from Mono to Duo possible
- Quiet operation, as the pump installation does not cause any structure-borne sound emissions.

# Description

The ready to plug in lifting station for faecal-free wastewater is equipped with a submersible pump and a backflow preventer. The collection tank made of permanently resistant polymer (PE) has an open pump tank. One-handed closures enable easy removal of the integrated components. The system for installation in the floor slab is preassembled for final installation on site.

The station is controlled optionally by a float switch (Mono) or a user-friendly control unit (Tronic and Duo), which are optionally integrated in the building management system via a potential-free contact or alarm and collective fault messages can be output via a GSM interface.

- with telescopic upper section for continuously adjustable height and level compensation and integrated floor drain

- collection tank made of PE, resistant to aggressive wastewater and 3 m groundwater

- including backflow preventer for the pressure pipe

- including sockets for inlet and cable conduit
- pump with multi-vane impeller for maximum operating reliability
- Type of wastewater: v

Installation situation:

wastewater without sewage floor slab installation

#### Version:

Type of system: Pump control: Backflow preventer: Resistant:	Single station Control unit integrated Resistant to saline media, wastewater from water softening systems and wastewater containing condensate from heating systems
Delivery state:	Installation-ready (connection parts must be connected on site)

617 mm 585 mm

#### **General characteristics:**

Colour:	black
Standard:	EN 12050-2

#### **Dimensions:**

Length:			
Width:			

## Tank:

Inlet nominal size (DN):	100
Pumping volume:	20 l
Pressure pipe connection (DN):	32 mm
Pressure pipe connection (OD):	40 mm
Installation depth:	490 - 620 mm

Vertical adjustment:

vertically adjustable upper section

#### Coverage features:

Type of cover: Cover material: Colour of cover: Load class: Length: Width: Locking:

Free passage:

Cover plate with slotted cover Polymer black K 3 (EN 1253-1) 366 mm 366 mm Lock & Lift

10 mm

#### Pumping device:

Pump: Number of pumps: Max. pumping capacity: Max. pumping height: Operating voltage: Mains frequency: Operating mode: Power P1: Power P2: Speed: Type of fuse required (electrical protection): Max. temperature (permanent) of conveyed material: Connection type: Impeller type: Length of mains cable for pump: Rated current: Protection class (pump): Type of pump connection cable: Temperature monitoring:

GTF 500 resistant 1 10 m3/h 8 m 230 V 50 Hz S1 0.6 kW 0.36 kW 2,800 U/min C 16 A 40 °C coded plug

Multi-vane impeller 5 m 2.7 A IP 68 (3m) H07RN-F 3G 1.0 mm2 integrated

#### **Control:**

Control unit:	Comfort
Operating voltage:	230 V
Self-diagnosis system (SDS):	yes
Battery buffering:	yes
Multi-line display:	yes
Log book function:	yes
USB interface:	yes
GSM interface:	yes
Potential-free contact:	optional
Protection class control unit:	IP 54
Length of mains cable for control unit:	1.4 m
Type of level measurement:	pneumatic
Level measurement instrument:	Immersion pipe
Alarm sensor:	optical probe
