

# Lifting station Aqualift S Compact Mono, GTF 1200, Floor slab

# Article information

Item no.: 281200S GTIN: 4026092082621 Price group: 20

# Advantages

- System ready to plug in
- Easy retrofitting from Mono to Duo possible
- Quiet operation, as the pump installation does not cause any structure-borne sound emissions.

# Description

The ready to plug in lifting station for faecal-free wastewater is equipped with a submersible pump and a backflow preventer. The collection tank made of permanently resistant polymer (PE) has an open pump tank. One-handed closures enable easy removal of the integrated components. The system for installation in the floor slab is preassembled for final installation on site.

The station is controlled optionally by a float switch (Mono) or a user-friendly control unit (Tronic and Duo), which are optionally integrated in the building management system via a potential-free contact or alarm and collective fault messages can be output via a GSM interface.

- with telescopic upper section for continuously adjustable height and level compensation and integrated floor drain

- collection tank made of PE, resistant to aggressive wastewater and 3 m groundwater

- including backflow preventer for the pressure pipe
- including sockets for inlet and cable conduit
- pump with multi-vane impeller for maximum operating reliability
- Type of wastewater:

Installation situation:

wastewater without sewage floor slab installation

Version:

Single station

connected on site)

Installation-ready (connection parts must be

vertically adjustable upper section

Float switch

integrated

Type of system: Pump control: Backflow preventer:

Delivery state:

#### General characteristics:

Colour: Standard:

#### **Dimensions:**

Length: Width:

## Tank:

Inlet nominal size (DN):	100
Pumping volume:	16 l
Pressure pipe connection (DN):	32 mm
Pressure pipe connection (OD):	40 mm
Installation depth:	490 - 620 mm

Vertical adjustment:

## Coverage features:

Type of cover:	Cover plate with slotted cover
Cover material:	Polymer
Colour of cover:	black
Load class:	K 3 (EN 1253-1)
Length:	366 mm
Width:	366 mm
Locking:	Lock & Lift
Free passage:	30 mm

### Pumping device:

Pump:	GTF 1200
Number of pumps:	1
Max. pumping capacity:	15.5 m3/h
Max. pumping height:	9 m
Operating voltage:	230 V

Mains frequency: Operating mode: Power P1: Power P2: Speed: Type of fuse required (electrical protection): Max. temperature (permanent) of conveyed material: Connection type: Impeller type: Length of mains cable for pump: Rated current: Protection class (pump): Type of pump connection cable: Temperature monitoring:

1.4 kW 0.84 kW 2,650 U/min C 16 A 40 °C Schuko (earthed contact) 2-pin Multi-vane impeller 5 m 6.2 A IP 68 (3m) H07RN-F 3G 1.0 mm2 integrated

## Control:

Type of level measurement: Level measurement instrument: mechanical Float switch
