

Lifting station Aqualift F Duo Comfort, SPF 1400-S3

Article information

Item no.: 28628-C GTIN: 4026092058497 Price group: 20

Advantages

- Different performance classes available
- Pressure sensor for reliable pneumatic level measurement
- Control unit with self-diagnosis system

Description

The lifting station for faecal and faecal-free wastewater is equipped with two submersible pumps and a backflow preventer. The collection tank made of permanently resistant polymer (PE) offers universal connection options and has a screwed access cover.

The station is controlled by a user-friendly control unit, which can be optionally integrated in the building management system via a potential-free contact or alarm and collective fault messages can be output via a GSM interface (Comfort control unit).

Type of wastewater: Installation situation: wastewater with sewage free-standing set-up

Version:

Type of system: Shut-off valve: Pump control: Backflow preventer: Sound absorption mat:

Delivery state:

Twin pump station without shut-off valve Control unit integrated yes

Installation-ready (electrical components, connection parts must be connected on site)
