

Backwater valve StaufixControl DN 200, exposed, Type 2 R

Article information

Item no.: 770200R GTIN: 4026092076866 Price group: 10

Advantages

- optical and acoustic warning message if backwater occurs
- Wireless backwater signal (EnOcean) can be integrated in the control system
- Flexible installation, various covers available for floor slab installation

Description

The backwater valve for wastewater without sewage is equipped with two mechanical flaps which close automatically in the event of backwater. One flap serves at the same time as an emergency closure to be closed by hand.

The battery-operated warning unit in the lockable cover generates an optical and acoustic warning if backwater occurs. Optionally, the warning message can control a remote signal generator in the living area via the EnOcean protocol or automatically disconnect a switched socket from the mains. Type of wastewater: wastewater without sewage Installation situation:

Version:

Stainless steel flap as rat protection: Emergency closure:

Delivery state: Backwater protection: Number of mechanical backwater flaps: exposed drainage pipe

yes yes

installation-ready Type 2 2

General characteristics:

Nominal size (DN):
Outer diameter (OD):
Note on nominal size:
Colour:
Standard:

200 200 Hydraulics correspond to DN 150 black EN 13564

Dimensions:

Length:	586 mm
Width:	233 mm
Height:	306 mm

Coverage features:

Type of cover:

Vertical drop between inlet and outlet:

Control:

Type of level measurement:	pneumatic
Level measurement instrument:	Pressure switch

Cover locking:

One-handed closure

Lockable cover

8 mm
