

# Pumping station Aquapump Medium Duo, STZ 1000, 800-1250 mm, D

## **Article information**

Item no.: 826711D GTIN: 4026092052174 Price group: 60

## **Advantages**

• height-adjustable upper section

## Description

The pumping station for faecal wastewater is suitable for underground installation and is equipped with a non-return flap for the pressure pipe. The PE-LLD tank is resistant to aggressive media and can be delivered with load class A, B or D covers. The pump with macerator ensures maximum operating reliability. The components are pre-assembled for final assembly on site. Including openings for ventilation and cable duct.

Type of wastewater: Installation situation: wastewater with and without sewage underground installation

## Version:

| Type of system:                         | Twin pump station |
|---|-------------------|
| Installation:                           | Wet installation  |
| Pump control:                           | Control unit      |
| Backflow preventer:                     | integrated        |
| Access steps:                           | no                |
| Passage seal for ventilation pipe (DN): | 100 mm            |
| Passage seal for conduit pipe (DN):     | 100 mm            |
|   |                   |

#### General characteristics:

Standard:

#### **Dimensions:**

| Length:           | 1,000 mm |
|-------------------|----------|
| Width:            | 806 mm   |
| Diameter:         | 809 mm   |
| Clear width (LW): | 600      |

EN 12050-1

## Tank:

| Number of inlets:<br>Inlet nominal size (DN): | 1 ST<br>150    |
|---|----------------|
| Distance pipe bottom inlet to tank bottom:    | 400 mm         |
| Distance from centre of outlet pipe to tank   | 482 mm         |
| bottom:                                       |                |
| Distance from centre of inlet pipe to tank    | 475 mm         |
| bottom:                                       |                |
| Connection conduit pipe (DN):                 | 100 mm         |
| Pumping volume:                               | 30 l           |
| Pressure pipe connection:                     | horizontal     |
| Pressure pipe connection (DN):                | 32 mm          |
| Pressure pipe connection (OD):                | 40 mm          |
| Installation depth:                           | 800 - 1,250 mm |
| Venting connection (DN):                      | 100 mm         |
| Groundwater resistant from lower edge of base | 2,500 mm       |
| section:                                      |                |
| Clear width of tank (LW):                     | 600 mm         |
| Chamber system:                               | LW 600         |

## Coverage features:

| Type of cover:  | Round cover plate               |
|-----------------|---------------------------------|
| Cover material: | Grey iron with concrete filling |
| Load class:     | D 400 (EN 124)                  |

## Pumping device:

| Pump:  | STZ 1000                       |
|--|--------------------------------|
| Number of pumps:                               | 2                              |
| Max. pumping capacity:                         | 11.5 m3/h                      |
| Max. pumping height:                           | 10 m                           |
| Operating voltage:                             | 230 V                          |
| Mains frequency:                               | 50 Hz                          |
| Operating mode:                                | S3 - 50 %                      |
| Power P1:                                      | 1.2 kW                         |
| Power P2:                                      | 0.69 kW                        |
| Speed:   | 2,800 U/min                    |
| Type of fuse required (electrical protection): | C 16 A                         |
| Max. temperature (permanent) of conveyed       | 40 °C                          |
| material:                                      |                                |
| Connection type:                               | Schuko (earthed contact) 2-pin |
| Weight:  | 10 kg                          |
| Impeller type:                                 | Macerator                      |
| Length of mains cable for pump:                | 10 m                           |
| Rated current:                                 | 5.2 A                          |

Protection class (pump): Protection class: Insulation class: IP 68 (3m) I F

## Control:

| Control unit:                  | Comfort                     |
|--------------------------------|-----------------------------|
| Operating voltage:             | 230 V                       |
| Mains frequency:               | 50 Hz                       |
| Self-diagnosis system (SDS):   | yes                         |
| Battery buffering:             | yes                         |
| Multi-line display:            | yes                         |
| Log book function:             | yes                         |
| USB interface:                 | yes                         |
| GSM interface:                 | yes                         |
| Potential-free contact:        | yes                         |
| Motor protection switch:       | yes                         |
| Protection class control unit: | IP 54                       |
| Type of level measurement:     | pneumatic                   |
| Level measurement instrument:  | Submersible pressure switch |
| Alarm sensor:                  | optical probe               |
