

# Pumping station Aquapump Medium Mono, STZ 1000, 1300-1750 mm, D

## **Article information**

Item no.: 827720D GTIN: 4026092052075 Price group: 60

#### **Advantages**

• height-adjustable upper section

#### Description

The pumping station for faecal wastewater is suitable for underground installation and is equipped with a non-return flap for the pressure pipe. The PE-LLD tank is resistant to aggressive media and can be delivered with load class A, B or D covers. The pump with macerator ensures maximum operating reliability. The components are pre-assembled for final assembly on site. Including openings for ventilation and cable duct.

Type of wastewater: Installation situation: wastewater with and without sewage underground installation

#### Version:

| Type of system:                         | Single station   |
|---|------------------|
| Installation:                           | Wet installation |
| Pump control:                           | Float switch     |
| Backflow preventer:                     | integrated       |
| Access steps:                           | no               |
| Passage seal for ventilation pipe (DN): | 100 mm           |
| Passage seal for conduit pipe (DN):     | 100 mm           |
|   |                  |
|   |                  |

#### General characteristics:

Standard:

## Dimensions:

| Length:           | 1,000 mm |
|-------------------|----------|
| Width:            | 806 mm   |
| Diameter:         | 809 mm   |
| Clear width (LW): | 600      |

EN 12050-1

## Tank:

| Number of inlets:<br>Inlet nominal size (DN):       | 1 ST<br>150      |
|---|------------------|
| Distance pipe bottom inlet to tank bottom:          | 400 mm           |
| Distance from centre of outlet pipe to tank bottom: | 894 mm           |
| Distance from centre of inlet pipe to tank          | 475 mm           |
| bottom:   |                  |
| Connection conduit pipe (DN):                       | 100 mm           |
| Pumping volume:                                     | 30 l             |
| Pressure pipe connection:                           | horizontal       |
| Pressure pipe connection (DN):                      | 32 mm            |
| Pressure pipe connection (OD):                      | 40 mm            |
| Installation depth:                                 | 1,300 - 1,750 mm |
| Venting connection (DN):                            | 100 mm           |
| Groundwater resistant from lower edge of base       | 2,500 mm         |
| section:  |                  |
| Clear width of tank (LW):                           | 600 mm           |
| Chamber system:                                     | LW 600           |
|   |                  |

## Coverage features:

| Type of cover:  | Round cover plate               |
|-----------------|---------------------------------|
| Cover material: | Grey iron with concrete filling |
| Load class:     | D 400 (EN 124)                  |

## Pumping device:

| Pump:  | STZ 1000                       |
|--|--------------------------------|
| Number of pumps:                               | 1                              |
| Max. pumping capacity:                         | 11.5 m3/h                      |
| Max. pumping height:                           | 10 m                           |
| Operating voltage:                             | 230 V                          |
| Mains frequency:                               | 50 Hz                          |
| Operating mode:                                | S3 - 50 %                      |
| Power P1:                                      | 1.2 kW                         |
| Power P2:                                      | 0.69 kW                        |
| Speed:   | 2,800 U/min                    |
| Type of fuse required (electrical protection): | C 16 A                         |
| Max. temperature (permanent) of conveyed       | 40 °C                          |
| material:                                      |                                |
| Connection type:                               | Schuko (earthed contact) 2-pin |
| Weight:  | 10 kg                          |
| Impeller type:                                 | Macerator                      |
| Length of mains cable for pump:                | 10 m                           |
| Rated current:                                 | 5.2 A                          |

Protection class (pump): Protection class: Insulation class: IP 68 (3m) I F

#### Control:

Operating voltage: Mains frequency: Motor protection switch: Type of level measurement: Level measurement instrument: Alarm sensor: 230 V 50 Hz yes mechanical Float switch optical probe
