

Grease separator EasyClean free NS 2, Auto Mix & Pump

Article information

Item no.: 93002.01/PVS GTIN: 4026092060964

Price group: 60

Advantages

- Direction of flow can be changed thanks to selfsealing interchangeable hubs
- Clean and odour-free disposal and cleaning
- Customisation possible through control unit

Description

The separator for greasy wastewater is suitable for free-standing set-up in frost-protected rooms and comes without metallic components in the tank. The collecting tank made of permanently resistant polymer (PE) is equipped with an integrated sludge trap and has a tapered base for fast and clean disposal. Two odour-tight covers with quick-release closures make easy access possible for cleaning and maintenance work.

The innovative Shredder-Mix-System with integrated macerating system is responsible for homogenising and circulating the tank contents. Cleaning and odourneutral disposal takes place via an exterior pump with 2-way valve and actuator which can be disconnected from the tank by a shut-off valve.

The fully automatic program run is controlled by a user-friendly control unit with multi-line display that can be integrated into the building management system through a potential-free contact. Cleaning and disposal can be started remotely using the remote control, which is available as an option.

Thanks to the customisable cleaning program with fast-selection function, cleaning can be adapted to the local circumstances as required. After disposal, a maximum of 3 litres residual sludge volume is left in the tank. Observance of the Drinking Water Hygiene Directive can be guaranteed through the fully automatic rinsing of the drinking water pipes.

20 year polyethylene warranty.	
Installation situation:	free-standing set-up

Version:

Shut-off valve: yes

Type of disposal: automatic disposal and cleaning system

Disposal system:
Disposal pump
Disposal variant:
Auto Mix & Pump

Refill inlet in accordance with DIN 1988: yes
Nominal size (NS): 2
Inspection window: yes
Shredder-Mix-System: yes
SonicControl: no

Water supply: 2 solenoid valves 1"

Load-bearing capacity (DIN 19901): F3

Delivery state: Installation-ready (electrical components,

connection parts must be connected on site)

Scope of delivery: Storz-B coupling R 2 1/2" for disposal vehicle

connection
