Description

The separator for greasy wastewater is suitable for installation in the ground and comes without metallic components in the tank. The collecting tank made of permanently resistant polymer (PE) is equipped with an integrated sludge trap and has a rounded base for fast and clean disposal. Access for cleaning and maintenance work is possible via one or several service access covers.

A direct disposal pipe socket is available for odour-reduced manual disposal.

A load distribution slab must be installed on site for load class D. The reinforcement drawings are available from KESSEL AG.

20 year polyethylene warranty.
